Roof Maintenance Program

Comprehensive Roof Life Extension – Making It Last Longer

FLAT – SHINGLE - METAL

ROOF MAINTENANCE - Preventative maintenance on new, even on existing roofs is often overlooked or rarely budgeted. But rain, wind, sun, pollution, and even foot traffic can all take a toll on your roof system. To extend the life of your roof and minimize repair cost, we highly recommend you invest in one of **WESTBANK ROOFING CO's** roof maintenance contacts.

ROOF MAINTENANCE “STANDARD” PROGRAM

HERE'S HOW IT WORKS: To begin we inspect the roof and determine how many visits annually would be sufficient to maintain it. This could range anywhere from 1 to 4 visits depending on your unique roofing system. Next, we agree on an annual fee in which would be divided evenly among each visit. Best of all, your roof doesn't have to be installed by **WESTBANK ROOFING COMPANY** to qualify. Nothing is more critical to your roof's long – term performance than establishing regular inspections and proper maintenances. You'd be amazed at the savings, which are in direct results of a roof maintenance program.

ROOF MAINTENANCE “STORM WATCH” PROGRAM: Includes surveying for storm damage to your roof as it pertains to repair and or re-roofing immediately after a major storm and when safe conditions allow. Due to downed phone lines and power outages, **NO** phone request by you will be necessary.

WESTBANK ROOFING COMPANY will automatically dispatch a professional roof inspector.

Roof Maintenance “**Storm Watch**” program is offered only to holders of our **Roof Maintenance “Standard” Program**.

Email us at westbankroofing@aol.com or call **504-340-4977** and ask about a free estimate on your Maintenance Program and start protecting your investment today.
